

Press Release

DERMALOG: Market leader for biometric border control "Made in Germany"

More travelers, shorter check-in times and increasing cost pressure – in times of globalization, cross-border traffic is challenging the authorities. The biometrics specialist DERMALOG offers efficient and secure solutions to meet these challenges.

Hamburg, February 5, 2018 - DERMALOG Identification Systems GmbH, based in Hamburg, offers state-of-the-art biometric recognition systems to make airport and other border controls safer and more efficient. Biometrics can make an important contribution to significantly speeding up and simplifying passenger handling, for example with facial or fingerprint recognition.

Twelve states, including Singapore, Malaysia, Maldives, Cambodia, Algeria and Brunei, are already relying on DERMALOG's solutions to monitor their national borders. The company's fingerprint scanners are also in use at German airports and at border crossings in Switzerland and the Netherlands. This makes DERMALOG Europe's leading provider of border control systems.

The core of the DERMALOG solution is a so-called Automated Biometric Identification System (ABIS). The multimodal system can not only match fingerprints but also additional biometric features such as facial or iris patterns. This makes DERMALOG ABIS much more reliable than solutions that only check one identifier.

Especially for border control at airports, DERMALOG has developed the DERMALOG Self Registration Kiosk and the DERMALOG Gate. Equipped with latest camera and scanner technology, travelers can

DERMALOG's Automated Biometric Identification System (ABIS) is a multimodal system. It can combine fingerprint, face and iris recognition. Therefore, border checks with DERMALOG ABIS are safer and more reliable.

be checked fully automated. The portfolio is complemented by video surveillance systems with integrated face recognition. If monitoring from the airspace is required, the DERMALOG technology can also be integrated in drones.

DERMALOG will present its solutions in detail at the 21st European Police Congress on 6 and 7 February in Berlin. Visitors will find the company at stand 23, level B. For more information, visit www.dermalog.com.

About DERMALOG:

DERMALOG Identification Systems GmbH with head offices in Hamburg is Germany's pioneer for biometry and the largest German manufacturer of biometric devices and systems. One of the shareholders in DERMALOG is the state-owned German "Bundesdruckerei".

DERMALOG employs a team of scientists who continuously develop biometric identification systems (so-called "AFIS" and "ABIS" systems), including cutting-edge fingerprint scanning devices. The product portfolio is complemented by Biometric Border Control Systems and Biometric ID cards and passports as well as Biometric Voting Systems. "FingerLogin", "Finger- Payment" and "FingerBanking" are also solutions developed by DERMALOG, as are systems for automatic Face and Iris recognition.

As well as Germany and Europe, the main markets of DERMALOG are in Asia, Africa, Latin America and the Middle East. To date, the company has provided its technologies and solutions to more than 200 large scale installations in more than 80 countries.

In addition, DERMALOG offers biometric solutions for banks and for the manufacturers of Automatic Teller Machines. This includes the largest biometric banking project world-wide (USD 50 million), which was delivered by DERMALOG (the so-called "BVN Project"): 23 banks and the Central Bank of Nigeria were provided with DERMALOGs ABIS, which prevents double identities among bank customers by means of finger and face recognition and guarantees the best-possible biometric identification of customers (KYC) for these banks. Furthermore, many ATMs across the globe have been equipped with DERMALOG's fingerprint technology.
